ABOUT ME

Since I first touched a computer I have been fascinated by them and wish to turn that fascination into a career. This is why I am pursuing education in computer science and information/cyber security. A career in cyber security would be a challenge and would be fulfilling to me because I would be protecting people and doing my part in society.

EDUCATION

Quincy High School, Quincy MA— *Expected Graduation 2019*

Currently enrolled in Information Technology 3 Honors, AP Computer Science, and AP Calculus A/B among others.
